Celtic Reflections

‘Celtic Reflections’ Workshop

Celtic Reflections is an entirely new method for speedily achieving endlessly different original Celtic patterns ... it is all done by mirrors. The sewing methods are all original too for an entirely new look incorporating butterflies, birds and ‘beasties’ in the designs as an optional extra. There will be lots to learn and try out. (Suitable for all levels).

Patterns will be provided.

Requirements.... each participant should bring ...

- Tracing paper or a roll of ‘greaseproof’ paper (Baking parchment is unsuitable.)
- Lead pencil. Black felt pen and soft eraser.

- Sewing machine capable of small zig zag ...fitted with an open toe foot and ideally a size 60 needle.
- Transparent/monofilament thread.
- Normal sewing kit including scissors (for paper and fabric)
- An ‘embroidery transfer pencil.’ (The kind you write on paper, then iron the paper to the fabric to transfer the design.)
- ¼ met. of ‘Bondaweb’ fusible ***Please do not substitute other brands as many do not work for this technique**
- Non- stick ironing sheet /baking parchment /or non-stick tin foil.
- Travel iron and board. (Queues for shared irons use up valuable time.)
- A hinged mirror (Acrylics are available approx..sized 5½ ins x 11½ ins. / 15cm x 30cm)
Otherwise two mirror offcuts sized approx.. as above hinged together at short ends by ‘a strong sticky tape. **N.B. smaller mirrors, or framed mirrors are unsuitable.**
(An investment in mirrors will be useful for all future designing... not just for Celtic.)
- Fabric. For background, plain, light coloured, cotton approx. 18 ins x 18 ins /45x45cm.
For Celtic cords and ‘beasties’, 2 x fat quarters and selection of scraps, plain or patterned in different colours.
- Freezer paper
- Rotary cutter, ruler and board.
- The book of this name will be available on the day..... (Luggage allowance allowing!!)

I look forward to meeting you on the day ... this is truly fast designing... no artistic talent required.

Slice up a circle

A morning spent on design techniques from the book of the same name, shows just how easy it is to create kaleidoscopic, or many sectioned designs, even if you are not mathematical or artistic.

There are a few sewing tricks in there too in the afternoon, producing machine sewn results that you can be proud of.

This workshop is technique based so we will not be intending to make an item during the session. However we will have created designs and sewn samples.... in fact gone through everything necessary to enable you to make something worthwhile leisurely at home . There will be many demos. And explanation of the many techniques covered in this book.

Requirement list will be sent to participants.

We are delighted to share the accomplishments of our members
