### February 2024

This last month we met together at the Petah Tikva Art Museum for a guided tour of the new exhibits on display. After a light lunch, we assembled in the auditorium for a lecture by Zohar Bekol on "The ways songs connect us thru history". Just as we were ready to start there was a power failure in the whole area. Zohar really tried to continue but it just was not possible and she promised to make it up to us another time.

We will keep you posted on the where and when.

We are looking forward to our annual exhibition "Together" in Jerusalem.
