### August 2024

We are in the peak of the summer with blazing temperatures, looking for anyway to cool down. Praying for a way to cool down both for the weather and the political situation.

We had a great workshop with ReNae Merrill, learning the basics and the mechanics of free motion quilting. We had great feedback from the participants.

If there is anyone interested in taking the workshop pls let us know. If there will be 10 members interested, we will arrange another session.
